➤ **SREIC annual plan # 2024-2025:**

Approved SREIC # 4 meeting: 05-12-2024

1. Conduct workshops for staff and students to enhance productivity by addressing obstacles and exploring various solutions.
2. Organize a workshop series for interns to improve their research skills
3. Hold seminars and brainstorming meetings to promote innovative thinking
4. Pursue external collaboration opportunities
5. Incorporate a Memorandum of Understanding (MOU) along with the Scientific Research Ethics form
6. Implement a mentorship program for the students seeking research support
7. Organize workshops to disseminate research ethics culture

#	Strengths	Weaknesses	Improvement Plan
1	Establishment of the 1 st Scientific Research Conference for Health Colleges of DAU	Lack of Quantified Impact: No detailed documentation of outcomes, attendance numbers (for some events).	Introducing surveys and reflection forms for all activities
2	Diverse Activities: The SREIC planned and executed a variety of activities—seminars and workshops and targeting staff, students, and interns.	No Innovation Projects	Propose an innovative plan for 2025-2026
3	Integration of the Scientific Research Club (SRC) with the Interns Committee: to engage interns effectively.	No Research ethics workshops are listed	Schedule and implement dedicated research ethics workshops
4	Ethical Alignment: Incorporation of the Memorandum of Understanding (MOU) with research ethics forms shows alignment with institutional integrity goals		
5	Initiation of External Collaborations: A step toward expanding impact and visibility.		
6	Positive Beneficiary Feedback: The recorded satisfaction rating ("Very good") from seminars/workshops indicates good engagement quality.
